Sir,

I have the honour to forward herewith an estimate for Rs 2,820/- for improving the storm water drain in Oil Mongers' Street, Krishnaraja Mohalla, - sanctioned by the Board of Trustees at their Ordinary Meeting held on 20th -- December 1944 and to request that you will be so good as to obtain sanction of Government thereto

2 The Report accompanying explains the necessity for the work A copy of the Board's Resolution sanctioning the estimate is also enclosed for reference

3 The cost of the work is proposed to be met out of the Provision of Rs 5,000/- made under construction of Drains in the City in the current year's Budget The excess over the Budget Provision will be met by re-appropriation.

I have the honour to be,

Sir,

Your most obedient servant,

Chairman

The improvement of the storm water drain in the Oil Mongers' Street is reported to be of an urgent and important nature The work is proposed to be undertaken in order to prevent the formation of pockets and the raising of the level of the bed of the drain at several places, which would, if left for itself, be an obstacle for the easy flow of the water This appears to be a very healthy proposal; for if the drain bed is floored with stone, as it is now proposed to do, it would be almost a permanent improvement which is expected to allow the ordinary flow of water freely

As there would be no scope for stagnation, the fear from the breeding of mosquitoes would, perhaps, be to a large extent removed.

The rates for the work to be undertaken are reported to be according to schedule. The estimate is enclosed for favour of reference. A draft G.O. is proposed and put up for approval.
